For full particulars please apply to the Secretary.

D. RAJA RAO,
Secretary.

MYSORE GEOLOGICAL DEPARTMENT.

Notification No. 9285, *dated 8th February* 1937.

SALE OF CORUNDUM.

It is hereby notified for the information of the public that sealed tenders will be received up to 1st March 1937 at the Office of the Director, Mysore Geological Department, for the purchase of grey corundum lying in three stacks in the villages of Baichapur and Alappanhalli in the Kortagere Taluk, Tumkur District, as shown in the schedule hereunder.

2. The entire quantity of the three stacks will be taken as one lot for the purpose of the tender.

3. The quantities mentioned in the schedule are approximate and the exact weight will be determined at the time of delivery.

4. Each tender should be superscribed "Tender for the purchase of Corundum" and should be accompanied by a treasury receipt for a sum of Rs. 25 which should be paid into the Mysore Government Treasury as earnest money. The earnest monies in the case of the rejected tenders will be refunded.

5. The tender should specify clearly the flat rate offered per ton of the material as delivered at the places stored.

6. The Government do not bind themselves to accept the highest or other tenders or to assign reasons for the rejection of such.

7. The removal of the material by the successful tenderer shall be subject to the following conditions:—

(*i*) That he shall pay within 15 days from the date of acceptance of his tender the lumpsum calculated at the rate per ton offered by him in respect of the quantity mentioned in the schedule hereto. In default, his tender will be treated as cancelled and his earnest money forfeited.

(*ii*) That the entire quantity of corundum should be removed within a month from the date of the execution of an agreement referred to in (*viii*) below.

(*iii*) Any balance of the material which may remain unremoved at the expiry of the period abovementioned shall be forfeited to Government.

(*iv*) The purchaser shall remove only the material collected in stacks particulars of which are set forth in the schedule attached hereto and in no case shall he collect and remove any fresh material.

(*v*) The purchaser shall not injure or damage any private or public property in the course of operations for the removal and shall abstain from all interference with public rights as to paths, tanks, sacred groves, etc.

(*vi*) The purchaser shall be responsible for any injury or damage in respect of the above done by himself, his agents, representatives or employees.

(*vii*) Any infringement or violation of any of the aforesaid terms and conditions of the agreement shall be seriously dealt with by Government and it is entirely left to their discretion to impose such penalty as they may deem fit in addition to confiscating to Government the security deposit referred to below. The decision of the Government in this behalf shall be final.

(*viii*) That he shall execute, within a week from the date of payment of the purchase consideration, an agreement embodying the above conditions relating to the removal of the material.

(*ix*) That he shall pay at the time of the execution of the agreement, a sum of Rs. 100 to be held as security for the due fulfilment of the terms of the contract. The earnest money paid by him for the tender will be adjusted towards the deposit.

Statement showing the approximate quantity of corundum at the disposal of Government offered for sale to the public:—

					Total ..	64

B. RAMA RAO,
Director.

OFFICE OF THE CHIEF ELECTRICAL ENGINEER IN MYSORE, BANGALORE.

Notification.

The present system of taking meter readings between the 20th and end of the month, the last days of collection being fixed between the 15th and 18th of each month, has been causing a good deal of inconvenience to the consumers in Bangalore and Mysore Cities, as they are obliged to remain at the pay office for a number of hours, especially during the days of heavy collections, *viz.*, between 12th and 18th resulting in some of them being unable to make payments before the due date.

In order to avoid this inconvenience to the public, the following revised procedure with regard to meter reading, billing and collection of bills is published for general information.

1. Meter will in future be read from the 1st to the 10th and from the 15th to the end of each month. The bills will be made out immediately and posted to the address of the consumers the next working day after the readings are taken. The bills will be payable within 15 days from date of the bill.

2. The new system of meter readings will come into operation from the 15th March 1937 and the bills for the month of March 1937 will therefore be payable on or before the 2nd of April 1937 and onwards according to the dates on which the readings in the installation are taken. The revised meter reading dates will be intimated to the respective consumers with the bills due and payable for February 1937 consumptions.

3. Bills will, as usual, be sent by post; but non-receipt thereof will not be a valid excuse for failure to make payment on the due date.

S. G. FORBES,
Chief Electrical Engineer.

COLLEGE OF ENGINEERING, BANGALORE.

Abstract Notification dated 1st February 1937.

The attention of the public is invited to the detailed notification published in page 123, Part VI of the *Mysore Gazette*, dated the 28th January 1937, calling for tenders for Workshop and Building materials required for the College.

Each tender must be accompanied by a deposit of Rs. 25 in cash as earnest money.

The last date for receiving tenders is 12th February 1937.

B. KRISHNASWAMY IYENGAR,
Principal.
